

– An international journal for New Concepts in Global Tectonics –

NCGT JOURNAL

Volume 5, Number 1, March 2017. ISSN 2202-0039. Editor: Dong R. CHOI (research@ncgtjournal.com)
www.ncgtjournal.com

EDITORIAL BOARD

Ismail BHAT, India (bhatmi@hotmail.com); John L. CASEY, USA (jcasey@ievpc.org);
Giovanni P. GREGORI, Italy (giovanni.gregori@idasc.cnr.it); Louis HISSINK, Australia (louis.hissink@bigpond.com);
Leo MASLOV, USA (lev.maslov@cccs.edu); Per MICHAELSEN, Vietnam (per.michaelsen@tdt.edu.vn);
Nina PAVLENKOVA, Russia (ninapav@mail.ru); David PRATT, Netherlands (dp@davidpratt.info);
Karsten STORETVEDT, Norway (karsten.storetvedt@uib.no); Takao YANO, Japan (yano.azumino@gmail.com)

CONTENTS

From the Editor NCGT Journal has been commercialized.....	2
Letters to the Editor	
Geological events that occur close together in space and time may be linked causally, <i>Charles Warren HUNT</i>	3
50 th anniversary of “History of the Earth’s Crust Symposium, 1966”, <i>Rick BOULAY</i>	4
Geological El Niño by James E. Kamis, <i>Oscar Javier AREVALO</i>	4
Articles	
The upper mantle structure of the Northern Eurasia from seismic profiling with nuclear explosions, <i>Nina I. PAVLENKOVA and Galina A. PAVLENKOVA</i>	6
The saga of India’s drift and supra-subduction origin of the ophiolites on its northwestern margin, Pakistan, <i>Ghulam SARWAR and Yasir Shaheen KHALIL</i>	27
Application of mobile and direct-prospecting technology of remote sensing data frequency-resonance processing for the vertical channels of deep fluids migration detection, <i>Sergey LEVASHOV, Nikolay YAKYMCHUK,</i> <i>Ignat KORCHAGIN and Dmitry BOZHEZHA</i>	48
The seismic sequence in Central Italy (2016-2017). II – Problem solving and decision making on geodynamic interpretation, <i>Giovanni P. GREGORI, Gabriele PAPARO, Maurizio POSCOLIERI, Claudio RAFANELLI,</i> <i>Giuliano VENTRICE, Gianpaolo GARILLI, Luca IMPERATORI, Fabio Lo CASTRO and Giovanna</i> <i>ZIMATORE</i>	92
The seismic sequence in Central Italy (2016-2017). III – Heuristic seismic transmigration, and focal volume estimate, <i>Giovanni P. GREGORI, Gabriele PAPARO, Maurizio POCOLIERI, Claudio RAFANELLI, Giuliano</i> <i>VENTRICE, Gianpaolo GARILLI, Luca IMPERATORI, Fabio Lo CASTRO and Giovanna ZIMATORE</i>	111
New planetology and geology: tectonic identity and principal difference of terrestrial oceans and lunar basins, <i>Gennady G. KOCHEMASOV</i>	131
SELF-ELF electromagnetic signals correlated to M5+ Italian earthquakes occurred on August 24, 2016 and January 18, 2017, <i>Gabriele CATALDI, Daniele CATALDI, Ricardo ROSSI and Valentino STRASER</i>	134
Evolution of Earth as a stellar transformer, <i>Bruce LEYBOURNE, James Mick DAVIS, Giovanni P. GREGORI,</i> <i>John M. QUINN and N. Christian SMOOT</i>	144
Global Climate Corner	
Sea level narratives conflict with tide gauge measurements, <i>Albert PARKER</i>	156
Without cherry picking, the sea level acceleration is zero in Newlyn, <i>Albert PARKER</i>	160
The temperature record of Berlin-Dahlem shows a warming only by arbitrary correction, <i>Albert PARKER</i>	164
Publications	
The correlation of seismic activity and recent global warming, <i>Arthur VITERITO</i>	171
Some interesting blogs and websites.....	171
News	
Continental crust in the Indian Ocean.....	172
About the NCGT Journal	172
